**4FO Ventures** decided to invest in the series A financing round of **Positrigo**, continuing to support and invest in promising Swiss technology companies. The closing, together with other investors, raised a total amount of CHF 3.9 million. This investment will help Positrigo, based in Zürich, to provide functional brain positron emission tomography scans to the masses, which will help in early detection of Alzheimer's Disease.

## The advisor

**Kellerhals Carrard [advises 4FO Ventures in this transaction](#). The Lausanne team was composed of partners Jean-Luc Chenaux (pictured), Alexandre Gachet, lawyers Joséphine Marmy and Cindy Ung.**
