Filtration Group (Chicago), an affiliate of Madison Industries, [acquired](#) Switzerland based **Oxyphen**, an innovator in track-etched membranes. Track-etched membrane is a high-precision manufactured film used in critical applications for life science, automotive, industrial and consumer markets. Oxyphen's track-etched membrane solutions complement the product offering and manufacturing capability within Filtration Group's business.

The teams

Walder Wyss [advised](#) the seller on the transaction, acting as Swiss counsel. The team has been led by partners Maurus Winzap (tax - pictured) and Urs P. Gnos (corporate/m&a) and further included partner Irene Suter-Sieber (employment), counsel Janine Corti (tax) and associate Angela Kummer (corporate/m&a).

Bär & Karrer and Hengeler Mueller acted as legal advisor to Filtration Group. Also [Filtration's general counsel](#) John Lavorato worked on this transaction.
