**Becton, Dickinson and Company** (BD) [acquired](#) **Straub Medical**, a privately-held company that develops and sells medical atherectomy and thrombectomy devices that treat PAD and Venous disease. BD welcomes more than 80 new associates who add valuable experience and expertise as well as key technologies. This operation allows BD to deliver advanced technologies in both atherectomy and thrombectomy and further enhances BD's portfolio of drug-coated, angio-plasty, and scoring balloons, stents, stent grafts, and CTO crossing products for the treatment of PAD and Venous disease.

## The team

**Homburger** [advised](#) BD in this transaction. The team was led by partners **Daniel Daeniker** and **Daniel Hasler** and associate **Karin Mattle** (all corporate and m&a) and included partner **Stefan Oesterhelt** and associate **Marc Vogelsang** (both tax), **Mirko Stiefel** and junior associate **Therry Lehmann** (both corporate and m&a), partner **Luca Dal Molin** and associate **Katrina Frame** (both ip/it), partner **Richard Stäuber** and associate **Sabrina Zimmermann** (both competition/regulatory), partner **Katrin Ivell** (compliance) and partner **Claudia Suter** (private clients).
