Lightrock, a leading global impact investor backed by LGT and the Princely House of Liechtenstein, announced its minority investment of 10% in South Pole Holding, one of the world's largest companies fully focused on fighting climate change. The double-digit million Euro investment will help South Pole meet exploding demand and achieve its mission of accelerating the global transition to a climate-smart society.

Lightrock is a global private equity platform investing in sustainable businesses built by purpose-driven entrepreneurs and committed to innovation for systemic change at scale.

Homburger acts as counsel to Lightrock with a team led by partner **Daniel Hasler** and includes associates **Nicola Togni** and **Léonard Aeschlimann Perales** as well as junior associate **Tanja Niederer** (all Corporate / M&A).
