E3 Holding, a German investment company focused on long-term investments, acquired 100% in Swiss based **clean-tek Holding**. clean-tek is a leading manufacturer of high-performance clean room systems used in the pharmaceutical, biotech, semiconductor and other industries and operates production facilities in Germany, Switzerland and Serbia. clean-tek expects a turnover of EUR 22 mio. in 2022. The purchase price was not disclosed.

Kellerhals Carrard advised the private seller of clean-tek in the transaction. The team consisted of partner Marc Hanslin (pictured) and Janic Lombriser (both corporate/m&a) as well as Christine Bassanello (employment).
