Krüger Group, a family-owned company in the food industry, has acquired Dianomi, operating under the brand name Sodanow, a company that offers water carbonators, PET bottles and CO<sub>2</sub>-cylinders. Since its incorporation in 2020, it has quickly become a large vendor of CO<sub>2</sub>-cylinders in Switzerland.

Krüger Group develops, produces and sells products in ten countries and employs around 5'300 employees at 21 locations. The acquisition of Sodanow complements Krüger Group previous acquisition of Sodapop in Austria and further expands its own business with CO<sub>2</sub> soda makers.

Niederer Kraft Frey acted as counsel to the Krüger Group on the acquisition of Dianomi. The [NKE](#) team was led by partner **Patrik Peyer** (m&a, pictured), working with associate **Alexander Göbel** (m&a).
