As we announced on February, Promedical, which was acquired earlier this year by a group of investors led by SME Equity Partners and Co-Investor Partners and acting through its parent company, has acquired Lauerz-based Nizell Medical. With this transaction the group further consolidates its position in the Swiss medical consumables market and becomes a leading integrated solutions provider in the Swiss healthcare sector.

[Lenz & Staehelin](#) has advised the buyer in this transaction. The team included **Roman Graf** (partner, pictured left), partner **Andreas Rötheli** (pictured right), and **Noé Luisoni** (all corporate and m&a), among others.
