Forterro, a group of European ERP software and services companies, through ProConcept, has acquired the entire share capital of Clip Industrie, a Swiss-based supplier of ERP software for small to midmarket industrial product manufacturing companies in Switzerland. The acquisition brings new customers to Forterro, who already provides its software solutions to more than 10,000 companies. This deal marks the group's sixth European midmarket ERP software acquisition. Headquartered in London, Forterro is home to a diverse range of local and vertical industry solutions, each one uniquely developed by the midmarket

Lenz & Staehelin has advised Forterro and ProConcept in this transaction. The team was led by partner **Roman Graf** (corporate and m&a) and included **Raoul de Montpellier** and **Ela Ipek Yüce** (both corporate and m&a), among others.
