The founders of **GetYourLawyer**, **Dominic Rogger** (pictured left), **Matthias Isler** (pictured right) and **Muriel Voelkle** (pictured centre), have acquired the shares of **Ringier Axel Springer Schweiz** by means of a management buy-out as of the end of March 2023.

Ringier Axel Springer Schweiz is withdrawing from the legal-tech start-up after four years of jointly developing the marketplace for legal services and establishing it on the market. The parties have agreed not to disclose the sale price.

GetYourLawyer, formerly digitalCounsels, has been successful on the Swiss market for seven years. The platform not only supports the search for suitable legal representation, but also simplifies client onboarding, service recording, payment processing and cooperation between clients and advisors with its software.
