[MLL](#) Legal acted as transaction counsel for the owners of Novasina and SIC Group on the sale of Novasina.

Novasina specializes in the development and manufacturing of precision measuring instruments for water activity, air and material humidity, temperature, and differential pressure. The company has a global presence, operating in over eighty countries. Its cutting-edge technology is trusted by renowned multinational corporations in industries such as food, pharmaceuticals, chemicals, semiconductors, textiles, air conditioning, and clean room technology.

SIC Group is focused on preserving the legacy of Swiss entrepreneurship by investing in Swiss family-owned companies. Their objective is to sustain and further advance these companies, many of which have a successful track record spanning multiple generations and possess a strong market position, ensuring a future-oriented approach.

The MLL Legal team was led by M&A partner **Andrea Sieber** (pictured left) and **Karin Oberlin** (pictured right) and consisted of **Philipp Falk** (senior associate, M&A) and **Marc Baumberger** (associate, M&A).
