Swiss Post has acquired a majority stake in **T2i**, a Swiss ITC group providing software solutions and digital services for authorities and enterprises. The acquisition will enable Swiss Post to strengthen its existing offering in the field of e-government and digitalization of document and HR management processes.

Swiss Post has been offering digital solutions for years - be it for healthcare, public administration or companies. By acquiring a majority stake in T2i, a software and services provider in French-speaking Switzerland, Swiss Post is investing in a company that is active in various areas of digitalisation for public administration and companies in French-speaking Switzerland.

[Pestalozzi](#) advised Swiss Post on all legal aspects of the transaction. The team included partners **Pascal Richard** (pictured right, **Petra Hanselmann** (pictured left, both corporate / m&a), **Markus Winkler** (counsel - TMT), **Catherine Hörr** (associate, corporate / m&a), **Milivoje Mitrovic** (junior associate, corporate / m&a), **Christa Elsener** (paralegal, corporate / m&a).
