Studer Family Office takes over NSM Holding, which consists of the software engineering company NSM Engineering based in Baar and nearshore development centers in Serbia and Romania. Even after the takeover, the management of NSM with around 350 employees will remain in the hands of CEO Oliver Marjanovic and CCO Marco Eberhardt. The takeover is intended to ensure the long-term independence and continued existence of the company and to combine the digitization expertise of both companies.

The advisor

Walder Wyss [advised the buyer on this transaction](#). The team was led by **Markus Vischer** (Partner, Corporate / M&A - pictured) and also comprised **Olivia Feusi** (Managing Associate, Corporate / M&A) and **Dimitrios Berger** (Associate, Corporate / M&A).
