Swiss Re subsidiary Swiss Re Insurance-Linked Investment Management (SRILIM) has received authorization from the Swiss Financial Market Supervisory Authority (FINMA) as manager for collective assets. With this approval, SRILIM will manage a standalone fund company, 1863 Fund Ltd, which will allow investors a new avenue to access Swiss Re's natural catastrophe business.

Walder Wyss <u>advised Swiss Re and SRILIM on the FINMA licensing process</u> and on Swiss legal matters relating thereto.
