[Walder Wyss](#) has successfully represented an Armenian construction company in an ICC arbitration seated in Zurich under the ICC Rules against a globally leading general contractor.

The law firm brought a multi-million claim on behalf of their client against the general contractor relating to unpaid invoices and lost profit following the termination of the contract due to non-payment. The arbitral tribunal affirmed that the contract was rightly and validly terminated and granted the law firm client the main bulk of its claims including the legal fees.
